

FairPensions' Climate Change Questionnaire 2009

Name of Firm: **BlackRock**

Assets Under Management: \$1.28 trillion as at 31 March 09

Section A: Assessment of climate change as an investment issue

1. In your business, how important is climate change as a factor in investment research, decision making and engagement activities with companies?

- a) Very unimportant
- b) Unimportant
- c) Important
- d) Very important

2. With regard to question 1, and compared to 2007, has climate change become:

- a) Less important
- b) Unchanged from 2007
- c) More important

3. As a fund manager, which of these factors do you see as a barrier to incorporation of climate change risks/opportunities into investment analysis and decision making?

(please mark any that apply in priority order with 1 as the most significant barrier)

a) lack of demand from clients	1
b) low current carbon price / difficulties in determining material financial impact	5
c) lack of regulatory requirements for investee companies	2
d) poor quality data on GHG emissions disclosed by firms	3
e) lack of regulatory requirements for investors	4
f) other - please specify	

Please comment on barriers to integrating climate change into investment analysis and decision making:

4. As a business, would you welcome regulatory requirements on investee companies to report GHG emissions?

- a) Yes
- b) No

5. As a business, would you welcome regulatory requirements on investee companies to reduce GHG emissions?

- a) Yes
- b) No

6. Do you (directly or through any collaborative initiatives) engage with government regarding regulation for companies and investors concerning GHG emission measurement, reporting and reduction responsibilities?

a) Yes

Please specify if via membership of any collaborative initiatives:

CDP, IGCC, IICGG, INCR

b) No

Please comment on your firm's stance on the regulatory framework for companies:

We endorse policy statements made by INCR and IGCC.

7. As a business, would you welcome stock exchange listing rules which require companies to disclose on a comparable basis climate change related risks?

a) Yes

b) No

Please comment on the relevance of listing requirements to achieving useful disclosure?

Section B: Use of climate change data

1. Does your firm request climate change related information (including data on emissions) from investee companies?

- a) In no sectors
- b) In a minority of sectors you invest in
- c) In a majority of sectors you invest in
- d) In all sectors

Please comment on which sectors and why:

Power, utilities, energy and mining. These sectors have the highest carbon footprints and are thus most financially sensitive.

2. As a business, do you factor climate change related risks and opportunities into analysis and investment decisions?

- a) In no sectors
- b) In a minority of sectors you invest in
- c) In a majority of sectors you invest in
- d) In all sectors

Please comment on which sectors and why:

Fully integrated approach - both financial and non financial factors that may effect the valuation of a stock are considered.

3. Are you currently making use of climate change related data provided by companies (including data on emissions) in investment decision making?

- a) In no companies
- b) In a minority of companies where data is available
- c) In a majority of companies where data is available
- d) In all companies where data is available

Please comment on your use of climate change information from investee companies:

CDP database.

4. In the last 2 years, have climate change related factors affected investment allocations at your firm (n.b. excluding specialist SRI / Environmentally focused funds)?

- a) In no sectors
- b) In a minority of sectors you invest in
- c) In a majority of sectors you invest in
- d) In all sectors

Please comment on why climate change does or does not affect investment allocations:

When climate change factors are financially material.

Section C: Engagement on climate change issues

1. As a business, do you engage (via written or face-to-face communication) with investee companies to ensure that they address climate change related risks and opportunities effectively?

- a) with no companies
- b) with a minority of companies you invest in
- c) with a majority of companies you invest in
- d) with all companies you invest in

Please comment on why you engage or do not engage with companies to address climate change related risks/opportunities, and if relevant how you undertake engagement:

Forms part of our general engagement. We do not request specific meetings unless there are significant issues but it is always on the agenda. A company with climate change risks usually has a policy developed to deal with them.

2. Where engagement occurs, which of the following do you seek to have in place at investee companies?

i) Named board member / senior executive responsible for addressing climate change risks/opportunities

- a) Yes
- b) No

ii) Company measures its GHG emissions and discloses to shareholders

- a) Yes
- b) No

iii) Company has an action plan with targets to reduce GHG emissions over a specified timetable

- a) Yes
- b) No

iv) Other - Please specify

Company conveys nuanced assessment of business and financial risks from climate change and other ESG issues.

Please comment on the purpose of climate change related engagement with companies:

Section D: Reporting

1. As a business, do you report on action taken (including engagement with companies) to reduce portfolio risks and enhance opportunities arising from climate change?

- a) no reporting
- b) to clients who request it
- c) to all clients
- d) publicly on a website

Please comment on your policy for reporting action to reduce climate change risk and enhance opportunity:
